### 3.Creating of tabs& Lighting app for CRM Application:

The screenshot shows the Salesforce Setup interface for Custom Tabs. The left sidebar has a search bar with 'tabs' entered and a list of navigation items including 'User Interface', 'Rename Tabs and Labels', and 'Tabs'. The main content area is titled 'Custom Tabs' and includes a 'Help for this Page' link. Below the title, there is a paragraph explaining that custom tabs can extend Salesforce functionality or build new application functionality. It also mentions that custom object tabs look like standard tabs, web tabs embed external web applications, and lightning component tabs add components to the navigation menu. A table titled 'Custom Object Tabs' lists four tabs: 'consumers' (Computer style), 'rice\_details' (Cup style), 'rice\_mills' (Bell style), and 'supplier' (Motorcycle style). Each row has 'Edit' and 'Del' links. Below the table is a 'Web Tabs' section with a 'New' button and a 'What Is This?' link, and a message stating 'No Web Tabs have been defined'.

Action	Label	Tab Style	Description
<a href="#">Edit</a>   <a href="#">Del</a>	consumers	Computer

The screenshot shows the Salesforce Lightning App Builder interface for 'App Details & Branding'. The left sidebar has a search bar and a list of navigation items including 'App Settings', 'App Details & Branding', 'App Options', 'Utility Items (Desktop Only)', 'Navigation Items', and 'User Profiles'. The main content area is titled 'App Details & Branding' and includes a paragraph explaining that users can give their Lightning app a name and description, upload an image, and choose the highlight color for its navigation bar. Below this, there are two sections: 'App Details' and 'App Branding'. The 'App Details' section has input fields for 'App Name' (MY\_RICE), 'Developer Name' (MY\_RICE), and 'Description' (Enter a description...). The 'App Branding' section has an 'Image' field with a logo, a 'Primary Color Hex Value' field with a dropdown menu and the value #0070D2, and a 'Clear' button. Below these sections is an 'Org Theme Options' section with a checkbox labeled 'Use the app's image and color instead of the org's custom theme'. At the bottom, there is an 'App Launcher Preview' section showing a preview of the app's navigation bar with the 'MY\_RICE' app.
